STREET NAME APPROVAL APPLICATION

For emergency purposes, it is important that names for streets be unique to both the Town of Knightdale and Wake County. Rarely will all submitted names be approved. Therefore, it is general practice to submit twice as many names as will be needed. The Town of Knightdale and Wake County will determine whether the names selected are acceptable. The Street Name web search tool checks for existing street names in Wake County. This can help you select unique names for submission.

GUIDELINES FOR THE SELECTION OF NAMES:

1. Names duplicating or sounding similar to existing names are not allowed.
2. Do not use names of individuals.
3. Limit names to 14 characters in length, due to sign space restrictions.
4. Names utilizing a direction (e.g. north, south, east, west) are not allowed.
5. Punctuation (e.g. hyphens, apostrophes, periods) are not allowed.
6. Names must include an acceptable street type (e.g. street, avenue, lane, court).
7. Street types should be indicative of the type of street they will be assigned to (e.g. a cul-de-sac should be of the types: court, place).
8. Avoid the use of double types/suffixes (e.g. Deer Path Lane).
9. A cul-de-sac with an opening that is wider than the specified street design width (a "bubble-sac" / "eyebrow") shall not have a separate street name, but shall bear the name of the main street of which it is a part.
