

Town of Knightdale

Staff Report

Title: Knightdale Station Playground
Contract

Staff : J.P. Lefever, Parks & Rec Director

Date: July 17, 2024

Asst. Town Manger Signature: DT

Town Manager Signature: WRS

SUMMARY

The playground equipment at Knightdale Station Park has reached the end of its manageable life span. The wooden structures built in 2013 are no longer a suitable and safe option for park visitors. The manufacturer that built the original structures is not able to make necessary repairs to the current structures due to their custom designs. Therefore, a new structure must be built to meet the needs of Knightdale citizens.

RECOMMENDED ACTION

Authorize the Town Manager to enter into an agreement with Carolina Parks and Play for up to \$750,000 for the purchase, shipment, and installation of a new playground at Knightdale Station Park.
